Skills and Tools

HTML, CSS, JS, ReactJS, HubL, HubSpot, Shopify, Liquid, Handlebars, WordPress, Craft CMS, Webflow, Figma, Adobe, ClickUp, Asana, Googling :)

Experience

The Kingdom Web Developer

MARCH 2021 - OCTOBER 2022, ADELAIDE, AUSTRALIA

I worked at The Kingdom as a Web Developer for almost two years. Since day 1 I have been learning a lot in the development space, mainly specializing in front-end. The focus of my job was HubSpot CMS development but I also took care of other platforms such as WordPress, Shopify, CraftCMS, and Webflow CMS. Very often the projects were re-platforming from one to another CMS/eCommerce platform. Along with my front-end work, I extensively learned how to use Figma and AdobeXD for design. Besides the design and dev side of duties, I was also fully engaged with training and coaching clients on how to make the most of the HubSpot ecosystem while using ClickUp to manage on-time delivery.

Coder Academy/RedHill Education National Enrolment Adviser

JULY 2018 - MARCH 2021, MELBOURNE, AUSTRALIA

I worked with the Red Hill Team (now iCollege) in various positions over 3 years. As a Student Ambassador, leading job and education expos, VR presentations, and various administrative assignments. I was promoted right after to Student Enrolment Adviser. Since March 2020 I was involved in the recruitment of aspiring developers at Coder Academy, in the role of National Enrolment Advisor. Being interested in tech and a developer in training myself gave me a unique advantage in my job supporting both Redhill Education brands, AIT and Coder. My role was wider than just recruitment with things like HubSpot CRM integrations and training, design, teacher assistance in high school holiday workshops, etc.

Building Brain/NOVP Software Project Manager

MAY 2015 - OCTOBER 2017, BITOLA, MACEDONIA

I worked remotely as a Software Project Manager for 2.5 years for a London-based company. The job required me to be an all-around employee overlooking a customer support team, and a software development team and taking point in client meetings.

Education

AIT Bachelor in IT (Mobile Applications Development)

MARCH 2018 - NOVEMBER 2020, MELBOURNE, AUSTRALIA

FON University Master in Financial Management

OCTOBER 2007 - NOVEMBER 2011, SKOPJE, MACEDONIA
